**A. Airport Road Presentation :** Two videos were shown to the commissioners, one which is a YouTube video of a plane attempting to land on a runway that is located to a town road the same way that Airport Road is located to Dean Memorial airports south end runway. The YouTube video states that there are stop signs on either side of the airport and the vehicle in the video did not stop for these signs and consequently the plane struck the vehicle destroying the planes landing gear. The other video is one that Dick and I made flying in my plane which shows the pilots view when landing and the points when the pilot cannot see vehicles that may be passing under the plane that he is landing. These videos will be available for viewing at the Jan. 26<sup>th</sup> selectboard meeting at 6:00pm.

**4. New Business:**

**A. Airport Awareness Day:** The commission members will meet with the local chapter of Experimental Aircraft Association, in Lebanon, the organization that created the flying young people program and provides insurance for the pilots that volunteer their plane and time. We will offer our help and see if they are willing to help us with our Airport Awareness program.
