- 4. Old Business:** Doug brought the commission up to date about him dealing with Harry Burgess to get the updated map of Doug's land. Harry had not gotten back in contact with Doug at the time of this meeting. As soon as he hears from Harry, he agrees to continue moving forward with the land deal.

Doug also had concerns about the fumes coming from the Bio Fuel plant, that at times the fumes were very unpleasant. He asked if we thought the chimney on the plant could be raised? Also at times the delivery trucks that are there in the middle of the night can be quite noisy.

**Doug was advised that the town has the authority to have the Bio plant meet all codes that would improve the annoyances that have been occurring.**

**The Ag lease was discussed and the commission was in agreement that some of the wording in the lease needs to be changed.**

**The commission also stated that they did not agree with the way that the select board handled the lease agreement with Hatchland Farms, and that members of the airport commission would like to attend the next select board meeting to discuss our concerns.**

**5. New Business: Airport Awareness Day was discussed and it was decided to set a date of Sept. 14<sup>th</sup> and to start contacting pilots to see who can help with the event.**

Dick is going to contact Jerry to get the AAD info for contacting other pilots.
