\* 2. When you think of fire service, what is most important to you?  
(please rank them 1 as the most important and 10 as the least important)

The cost of providing fire services in my town is fiscally responsible.

How fast a fire truck could get to my house in the event of a fire.

That when a fire truck arrives on site that there are enough firemen to safely operate the equipment.

That there are enough volunteers available to serve as fire fighters in our community.

That only the number of firemen needed are dispatched to a fire.

That firemen are properly trained.

That the fire station nearest to my home has a good ISO rating, keeping my insurance costs down.

That the Town has enough equipment to adequately respond to fires.

That the Town has the right equipment to adequately respond to fires.

That fire vehicles and equipment are purchased based upon need rather than a rotation.
