Meeting started at 6:00PM

- 1 Presentation by Andy Mosedale and Curtis Saffo on Wi-Fi project in Lyndonville, fully funded by USDA grant which provided free internet access to over a mile in Lyndonville, supporting a growing tourism initiative. This concept would/could be separate initiative for the town, from the Haverhill wide Broadband coverage concerns and fill a need in the downtown area of Woodsville as currently there is little to no coverage for passerby's. Discussion on the lack of need for this to be anything but a private transaction.
- 2 Geoffrey Sewake update us on the Young Folks Gathering in Colebrook. There were 16 attendees. The event included Food, Drink and music and offered networking to provide a better understanding of the town's assets and opportunities and help them engage. Geoffrey offered his services to do something similar in Haverhill.
- 3 Sarah Pushee, Director of the Cohase Chamber of Commerce updated us on her goals as the new Director, including the Mentoring program, but also stimulating the education and development of the Trades industry.
