**4. Old Business:**

**A. Beacon Discussion:** The beacon will be set up again on Saturday Oct. 6<sup>th</sup> at noon. It will be set up for two weeks to see how it may or may not affect the area with less to no leaves on the trees and through the different phases of the moon. Sunset flights will be flown to see the beacon's visibility from a plane.

**5. New Business:**

**B. House Inspection:** The inspection of the airport house revealed many issues including mold that would need to be corrected in order to rent it out to tenants. The person that did the inspection gave an estimate for these repairs of \$78,000 and this estimate is more than likely low. With much discussion with the select board and the town manager the commission voted that the cost to make all the repairs to the house was not feasible, so the commission voted to no longer rent the house and to close it up. The town manager will send a legal notice to the

**current tenants stating the situation and that they will need to be out of the house by Nov.1<sup>st</sup> 2018.**

**Meeting Summary:**

**All comments pro's and con's about the beacon from the public should be sent to Dennis via e-mail and he will forward these to the town office and the airport commissioners.**
